

# 6 *Delicious!* ways to survive those hot **Summer** days

Summer is finally here! The lakes have thawed, the grills are hot and the temperature is still rising. The season of backyard parties and outdoor fun has begun and our team here at Fusco Personnel would like to share some of their favorite warm weather treats! Just click the links, grab some friends and start the party right with these 6 easy recipes sure to satisfy those summertime taste buds.

## [Strawberry Shortcake Cake](#)

A classic. This simple yet delicious recipe is sure to please any summertime Grinch. It only takes minutes to prepare and will serve enough for you and 9 friends to enjoy with pleasure. If you're willing to share, that is!

## [Zucchini Parmesan Crisps](#)

Crunch your way into heaven with these low-fat, low-calorie snacks that will leave you wanting more. Perfect for the beach, boat, backyard or just a healthy snack to have at your desk. Slice, bake and serve. You won't regret it!

## [Pink Moscato Sangria](#)

Pretty in pink! No, not the movie, but we've got the next best thing with this amazingly refreshing summer cocktail that will leave you wanting more. Just add your favorite fruit, chill and pour. It's that easy!

## [Athenian Pasta Primavera](#)

Get in touch with your Greek side with this delectable, vegetarian friendly pasta dish that will keep your mouth watering for days. It only takes 30 minutes to prepare and will surely win you the best dish award at your next get together.

## [Campfire Cones](#)

Campfires are great on their own, but just imagine adding these ooey gooey sensations into the mix. Follow the recipe or create your own! They're kid-friendly, perfect for birthday parties, a late night sweet tooth and are simply just delicious!

## [Corona-Rita](#)

Serve frozen or over ice, this brilliant concoction is the perfect combination of salty and sweet. Sunshine, a beach chair and 5 ingredients later you will be on your way to paradise. Not a fan of tequila? Corona is great on it's own. Just add lime!
